The Monster Truck Racing Open Championship (MTROC) is an independent driver ranking system created to reward excellence in the sport of monster truck racing. Our goal is to gather racing results from every monster truck event from around the world and impartially identify the top racers. We hope that this endeavor will increase unity within the industry, competition among drivers on the track, and enthusiasm for monster truck racing among promoters, owners, drivers, and fans.

- The world rankings are ordered based on each driver's Rank Score. World rankings are a measure of racing success and not necessarily driver skill.
- SCORED RACES are reported events where points have been awarded. This excludes unreported events, events with insufficient information, events without racing, exhibition events, and other events that do not meet MTROC criteria.
- POINTS is the sum of points a driver has earned throughout the season.
- POINTS RANK is a driver's ranking based on his or her POINTS total. This ranking is used to determine the RANK SCORE.
- AVERAGE is POINTS divided by SCORED RACES and shows the average number of points a driver has earned at each event.
- AVERAGE RANK is a driver's ranking based on his or her AVERAGE total. This ranking is used to determine the RANK SCORE.
- RANK SCORE is the sum of the POINTS RANK and AVERAGE RANK. The WORLD RANKINGS are determined by ordered each driver's RANK SCORE from lowest to highest.
- WINS is the number of event wins a driver has achieved in this season.
- 2NDS is the number of event runner-ups a driver has achieved in this season.
- HEAT WIN % is the driver's approximate winning percentage in head-to-head competition. This value is calculated based solely on round advancement, and does not (yet) consider bye runs, fast losers, or replacements.
- SCHEDULE STRENGTH (also known as COMPETITION CALIBER) is an average score based on the 2019 rankings of the competitors at the selected driver's events. Each driver is assigned a weight based on his or her finish in the previous season. (The top five get 1.500, those below 100th and all rookies receive 0.500) The weights of all drivers at an event are averaged to determine the COMPETITION CALIBER of that event. A higher number (usually above 1.000) means that the field contained many highly-ranked drivers. A field with only unranked drivers will have a competition caliber of 0.500. The SCHEDULE STRENGTH is the average of these scores based on each driver's unique schedule.
- FIELD SIZE is the average number of drivers competing at the events at which the selected driver has competed.
- FINALS FACTOR is a measure of how often a driver competes in the final rounds of an event. A driver scores 100 for each final round, 75 for each semi-final, and 50 for every other placing. A FINALS FACTOR of 100.00 means that the driver has competed in the final round at everyone of his or her events. A FINALS FACTOR of 50.00 means that a driver has never advanced to the semi finals.

The Monster Truck Racing Open Championship (MTROC) is an independent driver ranking system created to reward excellence in the sport of monster truck racing. Our goal is to gather racing results from every monster truck event from around the world and impartially identify the top racers. We hope that this endeavor will increase unity within the industry, competition among drivers on the track, and enthusiasm for monster truck racing among promoters, owners, drivers, and fans.
